

PROGRAM	
International Conference - Brasov 25-27 May, 2016	
Registration of participants	9.00 – 9.45
Opening ceremony – „Matei Berindei” Aula – Dr.eng. Sorin Claudian Chiru	9.45 – 10.00
1st Oral presentations: moderator Dr.eng. Sorin Claudian Chiru	10.00 – 11.30
Influence of the climate change on the potato crop in central part of Romania Gheorghe Olteanu, George Pristavu, Maria Ianoși, Adrian Ghinea (Romania)	10.00 – 10.15
Climate changes and the impacte on potato production in Republic of Moldova Petru Iliev, Anatol Meleca, Irina Ilieva (Republic of Moldova)	10.15 – 10.30
New challenges in potato breeding to cope with climate change: dual tolerance to heat and drought Mehmet Emin Caliskan (Turkey)	10.30 – 10.45
Potato breeding meeting the challenges of climate change Zsolt Polgar, Istvan Cernak, Zsolt Vaszily (Hungary)	10.45 – 11.00
Relation between PVY (Potato virus Y) occurrence and aphids activity in the seed potato production in Belgium Jean-Louis Rolot, Liliane Deveux, Laurent Laguesse (Belgium)	11.00 – 11.15
Preliminary studies regarding the incidence of Potato virus Y in seed potatoes in Romania (for several cultivars) Carmen L. Bădărău, Sorin C. Chiru, Elena Rakosy-Tican, Adriana Aurori, Gheorghe Olteanu, Adrian Ghinea, Daniela Donescu, Andreea Tican, Mihaela Cioloca (Romania)	11.15 – 11.30
Discussions	11.30 – 12.00
Coffee break	12.00 – 12.30
Poster presentations	12.30 – 14.00
2nd Oral presentations: moderator Dr.eng. Victor Donescu	14.00 – 15.00
Research on biological sugar content and extractable sugar content of the topping beet compared to defoliated sugar beet and crown for extraction in the future in factories of sugar from the whole sugar beet plants Ioan Gherman, Mihail Dimitriu, Victor Donescu (Romania)	14.00 – 14.15
Effects of artificially drought induced by chemical desiccation in an assortment of winter wheat genotypes Camelia Urda, Rozalia Kadar, Marcel M. Duda (Romania)	14.15 – 14.30
Medicinal and aromatic plants grown for Romania Angela Mărculescu (Romania)	14.30 – 14.45
Characterisation of bacterial enzymatic complex used in leather wastes degradation and evaluated as bioactive potato fertilizer Mioara Ancuța Dumitru (Romania)	14.45 – 15.00
Discussions	15.00 – 15.30
Lunch	15.30
